

LO: To learn to identify the position and significance of latitude, longitude, the Northern Hemisphere, and the Southern Hemisphere.

Task: Look over the powerpoint again. Underneath the image (or on a separate piece of paper), draw and label this globe with its longitude and latitude lines. Be as precise and detailed as you can – do not rush! Then answer the questions on page 2.

- 1. What direction do lines of latitude circle the earth?
(North to South, or East to West)**
- 2. Can you name three lines of latitude?**
- 3. Can you name two lines of longitude?**
- 4. Can you name two countries in the Northern Hemisphere?**
- 5. Can you name two countries in the Southern Hemisphere?**
- 6. Why are the countries closest to the equator warmer than the north and south poles?**
